

# Function

```
function P(){  
  console.log("Debadyuti");  
}
```

Takes Nothing

```
P();  
console.log("Hii");  
P();
```

No Return Statement

```
17     console.log("Debadityuti");
18 }
19 function Sum(){
20     let num1 = 10;
21     let num2 = 15;
22     let res = num1+num2;
23     console.log("Sum is",res);
24 }
25 P();
26 console.log("Hii");
27 P();
28 Sum();
29 Sum();
```

`console.log(n1+n2);`

Takes Nothing

```
function Sum(){  
  let num1 = 10;  
  let num2 = 5;  
  let num3 = num1 + num2;  
  return num3;  
}
```

Returns Something

~~Sum();~~

console.log(Sum()); → 15

~~let res = Sum();  
console.log(res);~~

```
function Sum(a,b){  
  let res = a+b;  
  console.log(res);  
  console.log(a+b);  
}
```

Takes something

No Return Statement

Sum(5,3);

Parameter

```
let k = 41;  
let h = 2;  
Sum(k,h);
```

Input

```
let a = 10;  
let b = 20;  
Sum(a,b);
```

res → Output  
Input → a, b

push(3)

```
1 function Sum(num1,num2){
2
3
4   // return num1+num2;
5   let r = num1 + num2;
6    return r;
7
8 }
9 let res = Sum(4,5);
10 console.log(res);
```

→ Takes Something

→ Returns Something

console.log(Sum(1,2)); return r, X

①

return k l m n; X
